

Jinglong LED Torch is an industrial grade professional UV LED light and necessary to have in your toolbox. This increases your ability to detect the animal urine and activity with more efficiency. Equipped with ultraviolet LEDs shining at 395 nanometer wavelengths, offering a deep UV frequency.

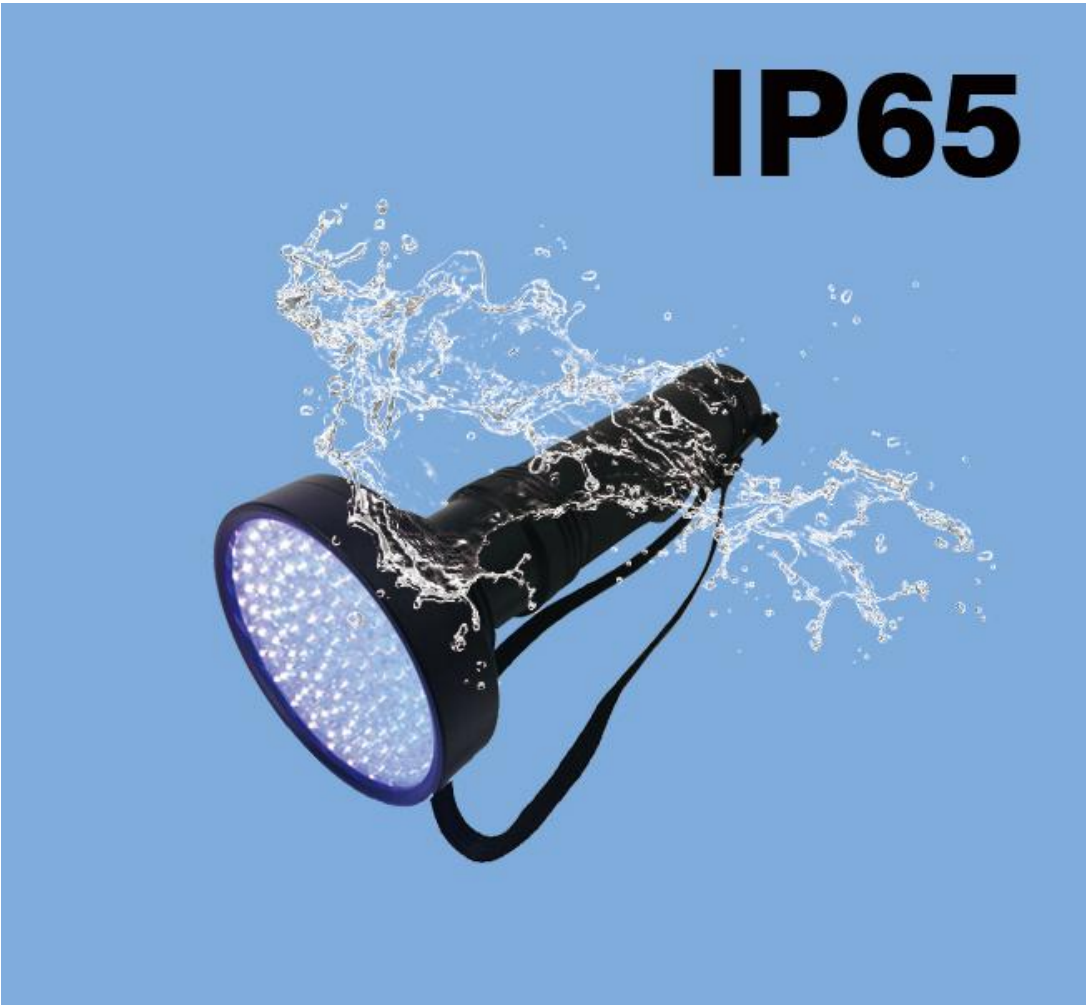

LED Torch	
Model	7000
Material	Vluminum Alloy
Target Pests	Rodent
Color	Black
Weight	247g/0.54lbs
Dimension	195x78x38mm
Light Color	Purple
Switch Type	ON/OFF button
Lifetime	100,000 Hours
Battery Type	6pcs AA Battery(NOT Included)
Waterproof	IP65
Lamp Luminous Efficiency(lm/w)	15
LED Light Source	100LED

1.This UV light can detect the presence of urine, making rodent inspection easier and more efficient.

2.Made of Aluminum, IP65 waterproof grade, excellent rust proof performance for your field work.

3.Equipped with 100UV 395nm LEDs, a strong irradiation will be applied.

4. Packed 1piece/inner box. 50pieces/carton.
